

A smart choice for dental coverage

What is Delta Dental PPO?

Delta Dental PPO is a plan that covers a percentage of your costs for covered dental services. After you meet your annual deductible, you pay your share of the bill and your plan pays the rest. Simple! You can visit any dentist, but you'll usually save the most with a Delta Dental PPO dentist. Why? Because our in-network dentists accept discounted fees for plan enrollees.

Once you enroll, you'll get coverage for diagnostic and preventive care, including exams, cleanings and x-rays. Each plan also covers services like fillings and simple tooth extractions. And, because regular dental exams can help keep your teeth healthy, coverage for cleanings and exams isn't subject to deductibles. Your Delta Dental PPO plan will keep you smiling well into the future!
